

OUR VISION

Warrior Nations Fellowship is a credentialing network of evangelistic, para-church ministries and churches. WNF is a cross-generational, cross-cultural ministerial fellowship that extends all national, international, and socioeconomic lines. We have a passion for God's kingdom, family, community and the end-time harvest. It is our desire for each member to know who they are in Christ based on God's Word, what their authority is in the kingdom of God, and how to operate in our culture through the principles of God's Word. Warrior Nations Fellowship believes that the Christian life is a life of faith and integrity.

Warrior Nations Fellowship's mission is to recognize, develop, and release "Joel's End-Time Army" into the body of Christ. We acknowledge the apostle, prophet, teacher, pastor and evangelist as current, functioning offices in the government of the Church. Warrior Nations Fellowship believes every Christian has a place in the body of Christ and we purpose to help and assist each believer to find that place.

We believe as each person understands who they are according to God's Word, that they will find their place in the Body of Christ and in the seven mountains of society. As these ministries and believers are released back into the communities and nations, we will see God restore His Church back into the New Testament function in which it was created to function.
